

# Fluren 33

## Product properties

Liquid, acidic limescale remover. Self-acting and effective for removing limescale, rust and soap residues in wet rooms.

- Effective against lime, rust and soap residues
- Cleans and disinfects
- Excellent for kitchen and bath

## Product use

Used for cleaning and disinfection on all hard surfaces that can withstand acidic cleaning agents, such as tiles, enamel, porcelain, chrome, plastic and stainless steel.

## Substrate

Must be suitable for surface treatment

## Treatment

When re-treating bathrooms, etc. where the surface is coated with lime soap, Fluren 33 is used to remove this layer before washing with a basic cleaner.

## Application

Pre-water the surface if necessary.

Spray directly onto the surface.

Leave on for 5-10 minutes and work with a brush and rinse with clean water.

## Expected result

Cleaned surface free of lime, rust and soap residues.

## Please note!

Do not use on marble or other acid-sensitive surfaces or mix with chlorine-containing agents.

## Environmental information

Remove the cap before recycling

**Storage:** Cool, frost free and tightly closed

**Protection equipment:** Protect skin and eyes from splashes with suitable clothing, gloves and glasses.
