

# Spray

## Product properties

Fast-drying, decorative spray paint, indoors

## Product use

Used to treat previously painted surfaces, wood, metal, aluminium, glass and stone.

## Substrate

Must be clean, dry, free of grease and suitable for surface treatment.

## Treatment

Remove loose material and paint by cleaning and sanding.

Dirt, grime, grease and spills are removed by cleaning.

Sand hard, smooth surfaces.

Apply a primer that suits the surface.

Metal surfaces must be primed with Spray Primer.

After drying, sand the surface (grit 600).

## Application

Shake for two minutes before use.

Test on small area to check adherence and the result.

Spraying distance 25 - 30 cm.

Working temperature 15 - 25°C.

Apply in several thin layers.

Drying time depends on air temperature, humidity and applied layer thickness.

After use, turn the can upside down and spray for several seconds.

## Good practise

Carefully cover surfaces and areas that are not to be painted.

Ensure good ventilation.

## Expected result

Glossy covered surface.

Resistant to dusting and light wiping with a damp cloth.

Carefully load the surface until the paint is completely hardened.

Do not paint over with clear varnish.

## Environmental information

Clean off the paint from tools before cleaning. Bring remains of fluent paint to the local recycling centre. Minimize your paint waste by pre-estimating how much paint you need. Keep the leftover paint for future use so you can effectively reduce the environmental impact.

**Storage:** Cool, frost-free and tightly closed

## Technical Data

Gloss	Gloss
Solids Weight %	3.6
Min. working temp. during application and drying/curing	Min. +15°C
Humidity	Max. humidity 80 % RH.
Drying time at 20° C, 60 % RH (Hours)	1
Fully cured at 20° C, 60 % RH (Days)	1
